

HEIR IN MATTERS CASE WAS REAL "WAR BABY"

TESTIMONY COMES FROM JESSIE
BRYAN, MOTHER OF CHILD

Tells of Patients in Public Ward of
Misericordia Hospital at Ottawa
Calling Mrs. Matters, the "Mil-
lionaire Lady"—Asserts She Never
Said She Wanted to Abandon
the Baby.

Chicago, May 19.—"The spurious
heir" in the case of Mrs. Dollie
Ledgerwood Matters, according to
testimony today was a real "war
baby."

Testimony from the mother of the
child, Jessie Bryan, mother of the child.

Jessie went to work in a Canadian
factory when she was 12 years old.
For three years she kept company
in innocent fashion with a young
shoemaker. They were to be married.
Then came the war and the shoe-
maker donned his uniform to go. A
year or so ago, much was written
and spoken of the girl with a view
of emotion which shook women of
the belligerent countries as their
men marched away to possible death.

The elemental instincts brushed
aside the traditions and conventions
of centuries, and "war babies" be-
came a problem. It was thus with
Jessie Bryan. Her lover sailed away
with his comrades and some months
later the girl went to Misericordia
Hospital at Ottawa.

Not a juror took his eyes from
the frank, round face of the girl as
she told her story. Tears dimmed
her eyes, also they did not over-
flow and her lips quivered. Her
voice was brave, but tremulous.

It was not until she was asked
"do you want your baby now?" that
she broke down and cried un-
restrainedly. The judge would not
permit her to answer the question.

"It was in May, 1915 that my
mother took me to the hospital,"
said the witness. "It cost her \$25
and I was sent to the public ward
where they send all the poor people.
It was to this hospital that Mrs.
Matters according to testimony came
seeking an infant that she might
pass off on the probate court as the
posthumous child of her late hus-
band of whose \$200,000 estate she
desired a larger share."

"We called her the 'millionaire
lady,'" said the witness. "She had
a private room."

Did Mrs. Matters ever speak to
you?"

"She used to stare at me, and
the first time she spoke she said,
'Jessie, you are a nice girl and it is
too bad.' After that Mrs. Matters
used to come up on the fire escape
and look at me in bed."

"Did the girls address her as
Mrs. Matters?"

"Oh, no sir," replied the girl with
a touch of awe in her voice. "You
see, we knew her only as the
millionaire lady. We were in the
poor ward, you know and she had
a room to herself."

The infant was born July 24th,
1915. The unwed mother was told
that he was born dead. The girl con-
tinued her story:

"Was taken into a private room.
There was another woman there—
married—and she asked me a lot of
questions. I said I didn't want to
stay there, I wanted to go back to
the poor ward, but the nurse said no.
They brought me chicken on silver
trays and nice things I had never
eaten before in my life."

"What happened August 3rd?"

"There were several babies to be
christened. One was brought into me
and it was the most beautiful baby,
dressed in beautiful clothes and I
asked whose it was. The nurse said
'Isn't it pretty, it's the millionaire
lady's.' I felt the lace and the soft
embroidery."

Jessie paused for a moment. Her
features moved convulsively.

"Then I began to cry," she added.
Four months passed before Jessie
learned that the baby was her own.

"A chum," went on the witness,
'read of the Matters case. She told
me about it and I ran out of the
house straight to the hospital. All
the old nurses were gone. I begged
for the truth but no one could tell
me."

On cross examination J. S. Bur-
res, for Mrs. Matters asked:

ROOSEVELT URGES THORO MILITARY PREPAREDNESS

Delivers Two Addresses in Detroit—
Former President is Greeted En-
thusiastically.

Detroit, Mich., May 19.—Theodore
Roosevelt urged thoro military pre-
paredness for the United States and
pleaded for true Americanism in two
addresses here today; discussed "so-
cial justice" before the convention
of the Brotherhood of Railway
Trainmen, and shook hands with
several thousand persons at a public
reception in a downtown hotel,
shortly before departing for New
York this evening.

The former president was greet-
ed enthusiastically everywhere he
appeared during his eleven hour
stay here as honor guest of an Amer-
ican Day Celebration. An unusu-
al demonstration occurred while he
was delivering his forenoon address
at a theater, when an elderly wo-
man, interrupting his expression of
approval of universal military service
cried out:

"I have two sons whom I offer."
"If every mother would make the
same offer," the speaker replied,
"there would be no need for any
mother to send her sons to the
front."

Speaking at a luncheon at the Le-
troit Athletic Club, Mr. Roosevelt
declared that true Americanism
"means unity of the nation without
regard to the lands from which our
fathers came; without regard to re-
ligious differences, and without re-
gard to the different sections of the
country in which we live."

Rain prevented the colonel from
addressing a mass meeting at Grand
Circus Park. After an automobile
tour of the city which was preceded
by his address before the Brother-
hood of Railway Trainmen, Mr.
Roosevelt returned to his hotel,
where thousands thronged the lobbies
and stood outside in the rain wait-
ing an opportunity to catch a
glimpse of him. He spoke briefly
to the crowd within the hotel and
shook hands with all who could
force their way to him.

Mr. Roosevelt did not meet Henry
Ford, the local automobile manu-
facturer, altho early in the day it
was said the colonel planned to visit
Mr. Ford at the latter's factory.

APPEALS TO SAVE NAVY'S RESERVES IN CALIFORNIA OIL FIELDS

WASHINGTON, May 19.—Secre-
tary Daniels appealed to President
Wilson today to use his influence to
save the navy's reserves in the Cali-
fornia oil fields as a vital step in the
campaign for adequate national de-
fense.

Should the bill favorably rep-
orted by the senate public lands com-
mittee to legalize certain lands with-
drawn by President Taft, 1909, become
a law, Mr. Wilson was told, the navy
must abandon oil fuel and return
to coal with a consequent loss in
steaming radius and speed to ships.

Navy designers advised the sec-
retary that it would be unsafe to
continue construction of oil burning
battle craft unless an adequate re-
serve supply of fuel was in sight.

WOMEN ATTEND MASS MEETING AT SUFFRAGE CONFERENCE

CENTRALIA, Ill., May 19.—Wom-
en from a score of towns and many
citizens of this community tonight
attended a mass meeting held here
in connection with the two days con-
ference of the Illinois Equal Suffrage
Association which opened today.
Mrs. Grace Wilbur Trout, former
president of the association, was
the chief speaker, her subject being:
"A Nation's Opportunity."

The theme of the meeting was the
need of the organization to main-
tain what the women already have
won in the state and to prepare plans
for extending that advantage. The
coming demonstrations in Chicago
in connection with the national polit-
ical conventions next month also
were explained.

Tomorrow the women will hold
morning and afternoon sessions.

OFFER RESOLUTION COMMENDING THE LEAGUE TO ENFORCE PEACE

MOHONK LAKE, N. Y., May 19.—Re-
presentatives sent to the Lake Mo-
honk convention on International
arbitration by business organizations
in a score or more of the large cities
in the United States presented res-
olutions today commending the "le-
ague to enforce peace."

The business men took this action
counting on the decision of the
conference as a whole not to judge
the debate over the league which oc-
curred a large part of the three day
meeting. The business men's league
strongly condemned the perpetuation
of militaristic aim and method.

TWO MEXICANS ARE HANGED

Brownsville, Texas, May 19.—Jose
Buenosic and Melquides Chapa,
Mexicans, convicted of the murder of
A. L. Austin and his son Charles in
the Mexican border raids last fall,
were hanged today at 2:13 P. M., in
the Cameron county jail.

TO MEET IN LINCOLN
Birmingham, Ala., May 19.—The
Cumberland Presbyterian general
assembly at its session here tonight
selected Lincoln, Ill., as the place
for its next meeting after a spirited
contest in which Dallas, Texas, and
Jackson, Tenn., were rival contend-
ers.

ITALIANS EVACUATE PORTIONS OF LINES

HEAVY POUNDING OF AUSTRIAN
ARTILLERY FORCES WITHDRAWAL

Artillery Struggle Continues Most
Violent on the Front of Avoucourt
Wood, Hill 304 and Le Mort Hom-
me—Russ Advance in Caucasus
Meets Active Opposition.

Under the heavy pounding of the
Austrian artillery, Italian forces have
been forced to withdraw from por-
tions of their lines in the region of
Trent, which had been bombarded
for three days. An official commu-
nication from Rome admits the evacu-
ation of the Zegnatoria position in
the Lagarina valley and the upper
Astico from Mont Maggio to Sag-
liodaspio.

The Italians, however, have occu-
pied further Austrian positions in
the Adamello zone, capturing prison-
ers, material and provisions.

During the day the Germans made
no infantry attacks from their new-
ly won positions on the left bank of
the Meuse in the Verdun region, ac-
cording to Paris. The artillery strug-
gle, however, continues most violent
on the front of the Avoucourt wood,
Hill 304 and Le Mort Homme. The
artillery action has not been great
on the right bank of the Meuse and
in the Woivre district aeroplane
bombing expeditions continue on both
sides.

The Russian advance in the Cau-
casus theater is meeting with more
active opposition from the Turkish
forces. Constantinople claims that
attacks by the Russians in the re-
gions of Bitlis and Balburt were re-
pulsed. Petrograd reports only "in-
significant encounters" along this en-
tire front.

Lord Robert Cecil, British min-
ister of war trade, informs The
Associated Press that an agreement
has been reached between Great Brit-
ain and Sweden and tension between
the two countries over the shipping
question and the seizure of mails
has lessened.

The entente allies submarine cam-
paign against German shipping in the
Baltic sea continues, the sinking of
the German steamer Tarve by an
underwater boat being announced
from Stockholm. All the passengers
and crew of the French coasting
steamer Mira were lost when that
vessel was torpedoed and sunk in the
Mediterranean sea May 16th, accord-
ing to a Marseilles despatch.

The sentence of Jeremiah C. Lynch
of New York convicted of complicity
in the Dublin uprising has not been
confirmed, according to advices re-
ceived by the state department at
Washington from Ambassador Page
in London. The British government
pending an investigation of Lynch's
case.

The sentence imposed upon Lynch
has not been announced officially.

PROGRESSIVES ORDER BUTTONS FOR USE DURING CONVENTION

Campaign Buttons Will Bear an
American Flag and the Inscription
"Americanism" and "Roosevelt."

Chicago, May 19.—An order for
100,000 campaign buttons bearing
an American flag and the inscription
"Americanism" and "Roosevelt" was
given today for use during the Pro-
gressive national convention in Chi-
cago. The order was given by a re-
presentative of the Progressive na-
tional committee.

Secretary O. K. Davis in a state-
ment issued said:

"It has been boldly asserted by
certain Republican leaders that they
intend to 'let Mr. Roosevelt write
their party platform.' I take it that
what these gentlemen mean, is that
they are going to have the platform
written out of recent declarations
by the colonel concerning American-
ism and preparedness and to com-
mit their party to this program,
while at the same time they seek to
have their convention select some
other man whose aggressiveness and
force has made these things the para-
mount issue of the day."

The Progressive national com-
mittee will meet in Chicago June 5th
to complete arrangements for the party
convention. Under the party rules
the committee is required to meet 15
days prior to the national convention
but as there are no contesting dele-
gations this meeting will be dispensed
with this year.

PROFESSOR BABCOCK DIES

Yonkers, N. Y., May 19.—Pro-
fessor Stephen Babcock, inventor of
the raised map used extensively in
schools for the blind and for whom
Grover Cleveland, former president
of the United States, once worked
as secretary, died at his home here
today from apoplexy. He was 83
years old and had been blind since
he was 19 years of age.

WABASH STOCK TRAIN WRECKED

Springfield, Ill., May 19.—Almost
every boy in Riverton, eight miles
east of here, is treasuring a goat in
his cellar today as the result of a
freight train wreck on the Wabash
railroad last night. Many cattle,
hogs and goats were killed, but
scores of head of stock escaped, in-
cluding 350 goats.

TELEGRAPHIC BRIEFS

was revealed when he appealed to
his uncle for aid in furnishing bond.

FINDLAY, O.—Directors of the
Illinois Pipe Line company declared
a dividend of \$12 a share to stock-
holders of record May 26th. Checks
will be mailed June 25th. The di-
rectors of the Ohio Oil company
also declared a dividend to stock-
holders of record of May 26th.

PAGE CABLES THAT SENTENCE OF LYNCH IS NOT CONFIRMED

British Government is Asked to Sus-
pend Infliction of any Punishment
Pending an Investigation.

Washington, May 19.—Ambassa-
dor Page at London called the state
department tonight that the sentence
of Jeremiah C. Lynch, the natural-
ized American convicted of complicity
in the Dublin uprising had not been
confirmed, but that in accord-
ance with instructions from Secre-
tary Lansing the British government
has been asked to suspend the in-
fliction of any punishment pending
an investigation.

Until this message came there had
been no definite assurance that
Lynch was alive. Senator O'Gorman
informed President Wilson last night
that he had been informed by friends
of Lynch in New York that he was
sentenced to be shot at midnight.
New York time. Secretary Lansing
at the president's direction dispatch-
ed at once instructions to Ambassa-
dor Page to seek a reprieve. This
was done at 9 o'clock but it was
feared that the appeal might be too
late. Ambassador Page will inquire
into the case and upon his report
will depend further action.

It was learned tonight that Presi-
dent Wilson informally had express-
ed his approval of a resolution in-
troduced yesterday by Senator Kern
directing the secretary of state to
make official inquiry as to the safe-
ty and well being of American citi-
zens in Ireland residing in districts
affected by the revolt and to take
steps to safeguard their lives and
property. The resolution now is be-
ing considered by the foreign rela-
tions committee.

AGREE ON MINORITY REPORT ON NAVAL APPROPRIATION BILL

WASHINGTON, May 19.—A minor-
ity report on the naval appropriation
bill was agreed upon today at a con-
ference of the Republican members
of the house naval committee. Their
program which is the same they pro-
posed in the committee yesterday
dreadnaughts, six scout cruisers,
twenty-eight destroyers, fifty sub-
marines and a number of auxiliary
ships. The Republicans will make a
fight for this program and for 20-
000 additional enlisted men.

The bill as agreed upon yesterday
by the majority of the committee pro-
viding for capital ships except five
battle cruisers may be reported to
the house next Wednesday. It car-
ries a total of \$241,449,102.

The committee's report was dis-
cussed at today's cabinet meeting.
The administration expects provision
to be made for two dreadnaughts
before the bill finally is enacted.

MRS. PRISCILLA DODD DIES

Pittsburgh, Pa., May 19.—Mrs.
Priscilla C. Dodd, aged 83, widow of
General Levi A. Dodd, and the only
woman who witnessed the hanging
of Mrs. Mary E. Surratt in Wash-
ington, D. C., July 7, 1865, when
the latter was found guilty as one of
the plotters of the assassination of Ab-
raham Lincoln, died here late yester-
day at a relative's home, it became
known today.

LEAVES ESTATE TO SCHOOL

Bloomington, Ill., May 19.—Trust-
ees of Illinois Wesleyan University
were today notified that the will of
the late E. M. Kirkpatrick, of Par-
ma, Idaho, directs that his entire
estate, valued at \$50,000 shall go
to the Wesleyan University upon the
death of his wife, Mr. Kirkpatrick
was a former resident of this vicin-
ity.

METHODISTS COMPLETE ELECTION OF BISHOPS

FOUR ARE ELECTED BY GENERAL
CONFERENCE FRIDAY

Conference Will Proceed to Election
of Three Missionary Bishops To-
day—Election of Hughes, Oldham,
Hamilton and Mitchell Ends Bal-
loting.

Saratoga Springs, N. Y., May 19.
—Seven new names appear on the
roll of bishops of the Methodist, Ep-
iscopal church tonight. Four, Matt
S. Hughes of Pasadena, Calif., Wil-
liam F. Oldham of New York; Frank-
lin Hamilton of Washington, D. C.,
and Charles B. Mitchell, of Chicago,
were elected by the general confer-
ence during today and tonight.

The others, Doctors Thomas Nich-
olson of New York; Herbert Welch
of Delaware, O., and Adna W. Leon-
ard of Seattle, Wn., were selected
earlier in the balloting.

The seventh and final ballot was
taken at 10 o'clock tonight and re-
sulted in the election of Dr. Ham-
ilton, who was the last bishop to be
chosen. He obtained 514 votes,
which was five more than the re-
quired number.

With his election the balloting,
which began Tuesday and has con-
tinued for the greater part of four
days, was brought to a close. To-
morrow the conference will proceed
to the election of missionary bishops
for Africa and Singapore, Malay-
asia, of whom three are to be chosen.

Rev. Dr. Hamilton has been chan-
cellor of the American University,
Washington, since 1907. He is a
brother of Bishop John W. Hamilton
of Boston, who retires from active
service this year because of the age
limit.

Dr. Hughes was chosen on the
twelfth ballot with a total vote of
549. Then a deadlock continued un-
til the fifteenth, on which Dr. Mit-
chell and Dr. Oldham were chosen,
the former with 569 and the latter
with 579, the largest polled for any
candidate.

Of the four bishops chosen today,
two are pastors, one a college presi-
dent and one is an official of a church
board. As a result of the election
two brothers, Bishop Edwin H.
Hughes and Dr. Matt S. Hughes,
who was elected today, will be mem-
bers of the board of bishops. Dr.
Hughes, who is fifty-three years old,
was born at West Union, Iowa. He
has been pastor at Grinnell, Iowa;
Portland, Me., Minneapolis, Minn.,
and Kansas City, Mo.

Dr. William F. Oldham has been
for the last four years correspond-
ing secretary of the board of foreign
missions. He was born sixty-two
years ago, in India and served as a
missionary there for a number of
years.

Charles Baird Mitchell was born
at Pittsburgh, in 1857. He has been
pastor at Pittsburgh, Pa., Plainfield,
N. J., Cleveland, O., Minneapolis
and St. James Church, Chicago,
where he succeeded Bishop William
A. Quayle.

Bishop Eugene R. J. Hendrix,
senior bishop of the Methodist Epis-
copal Church, South, urged gener-
ous support for the aged ministers in an
address at the anniversary of the
board of conference claimants to-
night.

CHICAGO RECEIVES CHECK FOR \$3,000,000 FROM TREASURER

CHICAGO, May 19.—A check for
\$3,000,000 was received by Charles
H. Sergel, city treasurer today from
Henry Stuckert, county treasurer,
for taxes collected by the county.

"This is the largest check I ever
have received, and so far as I know
it is the largest check of the kind
the city ever has received," said Mr.
Sergel.

The check will be distributed
among 18 banks he said.

DEMOCRATS FINISH TENTATIVE DRAFT OF REVENUE MEASURE

WASHINGTON, May 19.—Demo-
crats of the house ways and means
committee have completed a tenta-
tive draft of the revenue bill to raise
money needed for the preparedness
program.

The bill is being carefully exam-
ined by treasury experts, who will
confer with the committee Democ-
rats next Monday. It is designed to
produce \$100,000,000 from the in-
come tax law, by increasing the sur-
tax and making it apply to all in-
comes over \$1,000 and to raise \$55-
000,000 or \$90,000,000 more by a
tax on munitions and an inheritance
tax. The bill will embody the tariff
commission plan without substantial
change. The majority members of
the ways and means committee ac-
ting as a steering wheel, have reach-
ed an understanding that the house
should proceed with appropriation,
while the national political con-
ventions are in session.

SUMMON NEW VENIRE

Waukegan, Ill., May 19.—A new
venire of one hundred men to report
tomorrow was summoned in the Or-
pet case today. At the close of to-
day's session of Judge Donnelly's
court, 325 veniremen had been ex-
amined and only three remained in
the jury box. Acceptance of the lat-
ter was only tentative.

Will H. Orpet the defendant, is ac-
cused of the murder of Marian Lam-
bert, a high school student who had
been his sweetheart.

REYNOLDS BEGINS PREPARING TEMPORARY ROLL OF DELEGATES

Contract for Official Program of Re-
publican Convention Is Awarded to
a Chicago Firm.

Chicago, May 19.—Secretary
James B. Reynolds of the Republi-
can national committee, today began
preparing the temporary roll of dele-
gates to the party's national conven-
tion. Delegates from all but three
states have been chosen. May 23
Texas will select its delegation by the
convention method and South
Dakota will elect its delegates by di-
rect primary.

June 6 West Virginia will elect its
delegation by direct primary but
there will be only one set of names
voted for as the leaders have agreed
to thrash out their factional dis-
putes in a series of preliminary con-
ventions. This will enable the secre-
tary of state to certify the delegates
to the national committee by tele-
graph so that the representatives may
occupy their seats at the opening ses-
sion of the national convention June
7th.

The contract for the official pro-
gram of the convention was awarded
to a Chicago firm today. The pro-
gram will consist of 100 pages and
contain photographs of members of
the Republican national committee
and of officials of the local commit-
tee on arrangements in addition to
the schedule of events at the con-
vention. The contract for the con-
vention tickets with coupons for six
days sessions also was awarded.

FUNSTON'S RE-ALIGNMENT OF BORDER PATROL IS BEING DELAYED

Arizona and New Mexico National
Guards Slow in Mobilizing and
Make Disappointing Show.

Washington, May 19.—General
Funston's re-alignment of the border
patrol is being delayed, war depart-
ment officials said today by slow mo-
bilization of the Arizona and New
Mexico national guards and by the
disappointing showing in numbers
and equipment of some of the guard
companies that have reported for
service.

Altho it has not been ten days
since President Wilson called out the
Texas, Arizona and New Mexico
guardsmen for patrol duty along the
border their mobilization and assign-
ment is far from complete. The
Texas companies responded prompt-
ly, but in the other two states the
call has not met with as quick a
response as officials expected. In
addition so many companies in all
three states have been found to be
below their paper strength that the
war department now expects the to-
tal guardsmen provided will not be
more than 3,000 and probably a few
hundred less. When the call was is-
sued, it was depended on to add
3,500 men to the border patrol.

So far General Funston has re-
ported only in a general way on the
national guard mobilization but a
fuller report is expected early next
week.

ORDER SEVEN HUNDRED MARINES TO REINFORCE ADMIRAL CAPERTON

Officer Gives no Details of Develop-
ments in Santo Domingo Which
Prompted His Action.

Washington, May 19.—Three hun-
dred marines at Norfolk and be-
tween 400 and 500 in Haiti were or-
dered tonight to Santo Domingo to
reinforce the American force policing
the little republic. Those at Nor-
folk will go on the Cruiser Tennes-
see, now at New York. The Cruiser
Salem at Boston, also was ordered to
Santo Domingo and will take about
25 marines from the Boston station.

The transfer of marines from Hai-
ti to Santo Domingo was ordered by
Rear-Admiral Caperton, command-
ing the American forces in Domini-
can waters under broad discretion-
ary powers given him several weeks
ago. In his message reporting the
transfer and asking for further re-
inforcement, he gave no details of
the developments which prompted
his action. The task of the United
States under treaty agreement of
upholding the constitutional authori-
ties in Santo Domingo has been
complicated by a quarrel between
President Jimenez and congress
which resulted in the executive's im-
peachment almost simultaneous with
the development of an armed revolu-
tion under General Arias. Rebels,
for a time last week, were in pos-
session of the capital Santo Domingo
City but retired Monday when 900
marines were landed by Admiral
Caperton. This American force oc-
cupied the city and no important dis-
turbances have been reported since.

INDICATE PREFERENCE
FOR HUGHES
Portland, Ore., May 19.—Scattered
returns from Portland and other
cities in Oregon early tonight in-
dicated that Republican voters had
expressed preference for Justice
Charles E. Hughes to be the Republi-
can nominee for president. All the
preliminary that had reported gave
him a large lead over his opponents,
Senator Albert Cummins of Iowa
and former Senator Theodore E.
Burton of Ohio.

NURSES END CONVENTION

Burlington, Iowa, May 19.—The
Iowa State association of registered
nurses closed its convention in Bur-
lington with a musical program to-
night. Ann J. Jones, of Des Moines,
Iowa, was re-elected president. Next
year's sessions will be held in Con-
cell Bluffs.

For President.

L. Y. SHERMAN.

For Governor.

ANDREW RUSSEL.

The question of garbage disposal is taking on new phases now since the invention of the garbage disposal tank to be used in connection with the water systems of homes or store rooms. This invention is declared to make possible the disposal of garbage in a sanitary and economical way and the burning process, in addition to disposing of the garbage, becomes a large fuel factor in heating water.

A great preparedness parade is scheduled for Chicago June 3 and already a number of downstate cities have signified the intention of holding parades on the same date. This has so increased the enthusiasm of the Chicago committee that they are now making an appeal for a still wider and larger demonstration with the hope that June 3 may really be a notable day in the history of the central west. As some forceful writer pointedly said, "Unfortunately Americans are in much better condition to parade than they are to fight."

That Count Bernstorff, acting on the instruction of Berlin, has warned all German-American citizens that they should use the utmost care in observance of the laws of the land, is another indication of the desire of the imperial government to keep friendly relations with the United States. The warning—or appeal, whichever it may rightly be termed—was brought forth by the arrest of certain German subjects on the charge of taking part in plots to destroy munitions plants. The spirit which the issuance of the note indicates is really of much more importance than the language used.

Hadley for Vice President.

Altho former Governor Hadley of Missouri withdrew from the senatorial race in his state on account of ill health and went south, his friends are determined to keep him in the political running, and aside from pushing his campaign for chairman of the Missouri delegation to the national convention are organizing a Hadley boom for the vice presidency nomination. Mr. Hadley has given no special encouragement to this plan but his friends insist that his name will cause a good deal of enthusiasm in the national convention and that he has strength which will make him the logical man for the second place on the ticket at the Chicago convention.

While Hadley is a popular man, the name and location of the presidential candidate will have much to do in determining the section of the country from which his running mate should be selected.

Rippling Rhymes By WALT MASON

UNHAPPY FATHER

It makes poor Father's spirit sad, when he comes home at night, to hear the kitchen stove's so bad, the fire won't stay alight. To hear of forty thousand

traps he really ought to buy, altho he's so in debt, perhaps the knowledge makes him cry. His daughters say it's a disgrace the kids they have to wear: "ashamed to travel any place, we surely are," they swear. The housewife says the parlor rugs aren't worth as many dimes; she needs new vases and new jugs, in which to keep her ferns. New chairs, new dishes and new spoons are all in great demand; the cook is running out of prunes, and has no lard on hand. What wonder Father's tired and pale? He can't sit down to read, for he must hear the endless tale of "things we really need." What wonder if he feels relief, when age comes on apace, and knows that from this world of grief he pretty soon will chase? He sighs, when o'er the sunless sea he's ready to take wing, "Oh, grave where is thy victory, oh, death, where is thy sting?"

DATES IN ILLINOIS HISTORY.

May 20, 1785—An act of congress with regard to the disposal of lands in Northwest Territory required that Lot No. 16 of each township surveyed should be reserved for the maintenance of public schools within the townships.

Alice in Blunderland

A most notable arraignment of the present national administration, pointing to the grave dangers which the future may hold for this country appeared Friday in the Chicago Tribune under the heading given above.

"I have looked on with amazement," said Senator Lodge, "at the votes of the American house of representatives on the army bill in the present condition of the country."

Congress, as at least Senator Lodge perceives, has been an astonishing body. We did not know whether it seems as amazing from the inside as it seems from the outside, but the senator says it does.

During Mr. Wilson's administration the United States has had to employ its armed force twice in Mexico, has offered Germany the choice of war or peace, and has had the choice of war or peace offered it by Japan.

During this time it has had as president a scholar who tells the people they are in danger, but who does nothing but talk about it. It has had, part of the time, as secretary of state a gentleman who believes that love can and will settle any international dispute. It has had as secretary of the navy a gentleman who believes that the navy should be a floating high school. It has had as secretary of war a gentleman who expressed his opinion of the government by resigning in disgust.

Mr. Bryan's idea of being secretary of state was to fill the representatives of foreign nations full of grape juice and read the "Prince of Peace" to them. Mr. Daniels' idea of running the navy is to make it a cheerful school and see that the boys all use their hankies. Mr. Wilson's idea of being president is to knock some one down for a soulful purpose without taking care to see whether the fellow would fall if he hit him. Mr. Garrison's idea of being secretary of war was to resign.

That has been our administrative government. Our legislative government has been dominated by men who want \$20,000,000 appropriated for a Muscle Shoals power and nitrate plant, \$42,000,000 spent on rivers and harbors improvement, half waste, and \$5,000,000 spent on land reclamation under the guise of flood control.

Because they want and will have these and other wastes of money ordered, they will not attend to the national needs which, unattended to, become national dangers. They are afraid to take what they want and also give the nation what it needs because even in a country so rich as the United States the total expenditure would mean increases in taxation which the citizens would feel. That would cause indignation and have political consequences.

Therefore congress denies the nation adequate defenses and takes full weight of pork. These influences can be understood, but it still remains incomprehensible that con-

gress will yield so completely to them or that the nation, seeing what happens, will tolerate it.

The congress which has been trying to make the worst possible muddle of defense plans is the congress, which has just accepted Japanese dictation as to how the United States shall regulate immigration into this country.

Upon the question of determining what peoples may be admitted to the United States congress has taken the advice and suggestion of the Imperial Japanese government. It had to take dictation in this form if it had not taken it there would have been war. Japan does not offer its advice to foreign governments unless and until it is prepared to see that the advice is taken.

Japan would not have told congress what to do unless Japan had intended that congress should do it. Congress had to add this humiliation to its record because of the things it has not done and will not do.

A great many people with Senator Lodge must look with amazement, Japan is outbuilding our navy. In a few years, if we have more of Daniels and the present congress, the entire American fleet if stationed in Asiatic waters will not be equal to an engagement with the Japanese. The first act of the Democratic government was to cut the ship building program in two, Japan speeded up. The United States slowed down. It thereby invited Japanese aggression.

It is incredible. It is incredible that the nation tolerates it. An administration wandering around with ideas of brotherly love and humanity and of knocking people down for their moral good, and a congress eating its way thru the pork barrel; an administration delaying the construction of battleships and a congress refusing to authorize the construction of even one of them; an administration telling the people that they may wake up some morning, and find themselves in trouble and a congress taking money away from defense and putting it into political objects. It certainly is incredible.

The chairman of the house committee on military affairs a man who does not believe in an army, the head of the navy department a man who does not believe in a navy, the present secretary of the army a man recently converted from pacifism, the speaker of the house of representatives a man who thinks a million armed men would spring from the soil, the president a man who wants the biggest navy in the world and may not see one ship authorized during his administration afloat by the end of his administration.

Coast guards taken away because we are trying to catch a Mexican outlaw; Japan threatening us and threatening Germany; the world at war, and the United States piling up nothing but money and emitties; the president merely talking, and congress merely fattening.

immigration laws. All American born Chinese are being quietly organized into a citizens' alliance for the purpose of working for a change in the Chinese exclusion laws, or at least in a modification of the existing act.

It is claimed by the organization that American born Chinamen find it difficult to return when they leave the country; that antagonism toward the Chinamen on the coast is less than formerly true, and that the labor market really needs Chinese workers. While the organization thus far has indicated only the usual method for accomplishing the request made, there has come the intimation that the organization in this country will receive hearty support from the Chinese government.

Philadelphia's Bond Issue.

In big cities bond issues are sometimes approved which run to such enormous sums that it is difficult for the average man to grasp them. Some of the papers are complimentary Philadelphia, sometimes referred to jokingly as a slow city, on the fact that the people there by a majority vote of more than 75,000 recently approved two loan bills providing \$114,525,000 for transit, port and general municipal improvements. The fight was one of unusual bitterness. In addition to the opposition of the local transit company there was an organized fight against the issue by citizens prone to forget future benefits in their fear of immediate increase of taxes. A factional issue was also injected under conditions that made it dangerous. Specially bond issue contests run along about the same lines in cities, large and small.

The sum already mentioned is said to be the largest city bond issue ever authorized at a single election. On the night of the election when the vote was known Mayor Smith declared "The people of Philadelphia have done more for the city and themselves today than they have accomplished since the signing of the declaration of independence."

To Help Local Business.

That the people of St. Louis county are generally interested in good roads was evidenced plainly some weeks ago when they voted a bond issue of \$3,000,000 for good roads improvement. This action was but the beginning of a larger program and the good roads committee of the business men's league is now endeavoring to make St. Louis the center of fifty miles of good roads, a project which it is believed will bring in a vast amount of new business. The territory outlined includes

among other counties, Greene, Jersey, Macoupin and Calhoun in Illinois.

A Jacksonville merchant talking along the same line yesterday declared that one of the most important things that Jacksonville business men can undertake is keeping roads which approach Jacksonville in good passable condition. It is a fact that is frequently acknowledged that in almost all directions the roads leading into Jacksonville are in much poorer condition just before the city is reached than is true miles further out. While the necessary dragging would be outside the city limits, the money expended will not only relieve the city of an undesirable reputation but will more than repay for the actual money expended.

It often happens that the expenditure of money is really an economy, and that is the situation presented in the good roads problem in the area contiguous to Jacksonville. The Chamber of Commerce cannot undertake a more important work and it is something which should enlist the hearty support of every business man in the community.

Political Pointers.

Governor Brumbaugh of Pennsylvania, who has been looked upon as presidential timber by the Republicans of his state, is busy explaining further revelations of big campaign contributions that were never accounted for.

The Texas Democrats will hold their state convention at San Antonio on Tuesday, and the Progressives will be in session the same day at Dallas. Indications point to opposition toward fusion between the Progressives and Republicans in that state.

The Kansas Progressives, under the leadership of Victor Murdock, will also oppose fusion, it is said, at the state convention at Topeka on Tuesday.

According to William F. McCombs, the retired leader of the Democratic national committee, Postmaster General Burleson is the only member of the group of campaign managers that President Wilson has retained close to him.

The Kentucky Democrats meet on Wednesday next at Lexington to select delegates to St. Louis. A fight is in prospect over the national committee, Governor Stanley urging a new candidate in General W. B. Haldeman, the Louisville publisher.

CONCLUDING GRADUATION RECITAL AT NORTHMINSTER CHURCH

Good Ability Shown in Third Concert by Pupils of Illinois Conservatory—Teachers' Certificates Presented.

The concluding graduation recital of students of Illinois Conservatory was held at Northminster church Friday night and at the conclusion of the program the teachers' certificates were given out by President C. H. Rammelkamp. The shorter than either of two previous programs the performance was of a grade even higher, as universally attested to by the many discriminating listeners who attended.

Miss Rowena Sinclair was at the first piano in the opening number, a Saint-Saens selection, and Mr. Munger played the second piano part. Variations on a theme of Beethoven required a high degree of interpretive skill and Miss Sinclair fulfilled all the demands made upon her art. In the aria from Mascagni's "Cavalleria Rusticana" Miss Helen Frazer sang with special sweetness and beauty of tone. Her enunciation was good and the "Rusticanna" in Italian she sang with spirit and fervor. The numbers by Miss Hoffman were given with excellent understanding and the most difficult passages in her selection were met with unhesitating ability of execution. Harry Beckman sang the Coleridge-Taylor number with clarity of tone and brought the whole to a climax of strength and finish. The concerto in A Minor by Schumann was done by Miss Inez Pires with superior skill who showed especial command of the pianissimo passages.

Candidates for teachers' certificates this year at the Conservatory are: Harry Beckman, Chicago, voice; Mabel June Forrester, Kahoka, Mo., violin; Sarah Katherine Frankenberg, Jacksonville, voice; Helen Frazer, Deadwood, S. D., violin; Ruth Charlotte Irving, Jacksonville, piano; Earl H. Pond, Greenville, voice; Nellie Frances Self, Jacksonville, voice, and Helen B. Sorrells, Jacksonville, violin.

TRAVELING MEN MEET

Bloomington, Ill., May 19.—Almost 600 members of the United Commercial Travelers were registered tonight for the annual state convention, now in session in this city.

A parade was the feature of the day. The business sessions are secret. The election of officers will be held Saturday morning. The contest for the convention next year is between Urbana-Champaign and Peoria.

A ball tonight ended the day's festivities.

OPPOSES UNION OF METHODISTS

Zanesville, O., May 19.—Opposition to the union of Methodist Protestant church with other branches of Methodism was voiced here tonight by Rev. Lyman E. Davis of Pittsburgh, president of the general conference of the church in quadrennial session here.

Dr. Davis was re-elected president of the conference for four years.

SEEK IMPROVED CODE PERTAINING TO MARRIAGE AND DIVORCE

General Assembly of Presbyterian Church in United States Adopts Resolution.

Atlantic City, N. J., May 19.—Resolutions calling upon the states to establish improved codes pertaining to marriage and divorce and requesting all ministers to preach at least one sermon a year upon the sanctity of marriage and the evils of divorce were adopted by the general assembly of the Presbyterian church in the United States of America at today's session of the 28th annual meeting. The resolutions were adopted at the recommendation of a special committee on Christian life and work.

The committee in its report, also made an appeal for evangelism in the family and called attention to the work before the delegates on the question of the Bible in public schools. The report of the executive committee which was approved pointed out that the proposed merger of the board of education and the college board would be in violation of federal laws because one of the boards is incorporated in Pennsylvania and the other in Illinois. The committee suggested the utilization of the board of education with suitable enlargement and revision of its powers or the establishment of a new and independent corporation to be created in another state.

A membership of 36 including 18 ministers and 18 elders was proposed for the new board. The budget for 1916-17 aggregating \$5,159,112, an increase of more than half a million dollars over the previous year, was adopted by the convention.

Some of the larger appropriations are:

Foreign missions, \$1,850,000.
Home missions, \$1,289,112.
Colleges, \$265,000.
Woman's board of home missions, \$600,000.
Ministerial relief, \$175,000.
Education, \$200,000.
Publication of Sunday school work, \$210,000.
Freedman, \$225,000.
Temperance, \$60,000.

DANGER OF STRIKE

IS ELIMINATED.

Wheeling, W. Va., May 19.—Danger of a strike of coal miners in Eastern Ohio was eliminated here tonight when the joint scale committee representing the operators and miners reached an agreement on the provision in the new wage scale regarding compulsory arbitration of international disputes to which the miners objected. As a substitute it was agreed that all disputes instead of being submitted to the state board of arbitration should instead be adjusted by the state officials of the miners' organization and the mine owners involved in the trouble.

FIFTY VENIREMEN IN LABOR CONSPIRACY CASE ARE DISMISSED

Action Is Taken After Court Hears Someone Had Said He "Would Not Serve on the Jury for Fear He Would Be Killed."

Chicago, May 19.—Fifty veniremen about to be examined as possible jurors in the labor conspiracy case were dismissed today by Judge Kichham Scanlan in criminal court after one had said in the hearing that he "would not serve on the jury for fear he would be killed."

One after another of the prospective jurors expressed disinclination to serve and when pressed for a reason said that he would not be free from fear of injury if he were on the panel.

Several of the veniremen were questioned in chambers by the judge and afterward the order of dismissal was entered.

The case grew out of labor troubles in which many buildings in process of erection were damaged. More than twenty-five defendants were indicted among them being business agents of different labor organizations. Four jurors have been accepted and sworn and three others have been tentatively accepted. The hearing has occupied several weeks.

EXPEDITION FROM GLENN SPRINGS IS COMING OUT OF MEXICO

SAN ANTONIO, May 19.—Late tonight General Funston received a message from Colonel Sibley saying the expedition which started from Glenn Springs, ten days ago was coming out of Mexico. Major Langhorne with two troops of cavalry has penetrated to Cerro Blanco, 135 miles from Boquillas.

Having rescued the Americans taken prisoner by the Glenn Springs bandits and scattered the raiders and also because of scarcity of water and forage, Colonel Sibley decided to return. His message stated the troops would start back as soon as he could collect scattered detachments of troop A, which were some 15 miles in advance of the main body.

FILIBUSTERING BY MANN PREVENTS VOTE ON SHIPPING BILL

WASHINGTON, May 19.—Filibustering by Republican Leader Mann tonight prevented the Democrats from carrying out their plan to pass the administration shipping bill before adjournment.

Debate on the measure closed at 4 o'clock this afternoon and three hours later it was ready for passage virtually as reported by the committee, in spite of persistent efforts to amend it. Representative Mann demanded teller votes on many of the hundred or more amendments offered by Republicans and when a final vote on the measure itself was about to be taken he insisted that the formality of reading the engrossed bill be observed. As the bill had not been engrossed there was nothing to do but adjourn. The vote will probably be reached early tomorrow afternoon.

Indications tonight were that the bill would pass without the vital amendment by almost a strict party vote.

School picnic will be Monday, May 29, in the woods if weather is favorable.

Mrs. Mabel Crain of Woodson was the guest of her cousin, Mrs. W. B. Rimbey and family Friday.

FIND BODY OF MAN

LYNCHED BY MOB.

Alexandria, La., May 19.—Parish officials tonight found the body of M. G. Tally, who was taken from the jail at McNary, near here Wednesday night by a party of masked men and lynched. The body, which was found in a woods near the jail, bore evidences of violent treatment. Tally was arrested Tuesday charged with mistreating his 11 year old daughter. The authorities kept the matter quiet until today believing the mob had memorably beaten Tally or driven him from the parish.

LEAGUE TO ENFORCE PEACE SENDS LETTER TO MANY MINISTERS

Rev. W. E. Spoonts One of Those Asked to Make Clear Purpose of League—Lessons From the War are Drawn and Argument Made that Arms Must be for Preserving Laws Rather than Breaking Them

Ex-President William H. Taft, as head of a special committee on Church Co-operation, wrote to Rev. W. E. Spoonts here asking him to embody in his sermons on May 21, an explanation of the program of the League to Enforce Peace, which is to hold its first annual assemblage on May 26 and 27. Letters were sent to 10,000 ministers.

Other signatures to the letter are those of L. T. Wilson, Methodist Bishop of New York, Shailer Mathews, President of the Federal Council of the Churches of Christ in America, the Rev. Charles S. MacFarland, the Rev. J. B. Remensnyder, Rev. Arthur W. Brown, Hamilton Holt and Fred B. Smith.

Mr. Taft is President of the League to Enforce Peace, which was formed at Philadelphia, in Independence Hall last June, when a platform was adopted which proposed the establishment of an international court and council of conciliation by a league of nations, which should pledge its joint economic and military forces to prevent any signatory from beginning hostilities or declaring war, over any question until it had first tried judicial methods.

Open Letter to Ministers. Enclosed with the letter from Mr. Taft and others was an "Open Letter to the Ministers of America on the Moral Challenge of the War," which reads in part as follows:

The present war has challenged the moral ingenuity of the world. For years we have preached the ideals of peace and have hurled indictments against war. While the world was at peace it was easy to feel that we had done our duty and discharged our responsibility when we had lifted our voice against war in pulpit, in university and in the market place. A long period of peace had lulled the world into a false security. We did not feel a driving urgency about our work for international peace. We were going along quietly doing what we could to educate public opinion against war, but we did not feel an immediate responsibility for devising actual machinery of international organization that would make war less probable.

Then there burst upon the world overnight the most brutal, the most ruthless, and the most gigantic war of history. The flower of human brotherhood that the Christian forces of the world had been watering and nurturing for centuries was withered by the hot breath of hate. The results of years of struggle for social justice, for democracy and for larger opportunity for the common man, were thrown on the scrap heap and all the energies of mind and heart were harnessed to the machinery of war.

The War's Lesson.

This war has taught us that the most urgent, the most necessary, the most fundamentally religious duty now before us is the devising and adopting of some method other than war for settling the disputes that are bound to arise between nations.

The best thinking of the world as well as all the lessons of history indicate that the only method by which the dangers of war can be practically eliminated, is by the substituting law for war among nations just as we have substituted law for war among individuals within the nations.

There is no reasonable ground to hope that the nations of the world will at this stage go so far as to disarm and create an international army and navy to police the world. We have not got that far in international affairs. But we have got to the point where there is ground to hope that at the end of this war the community of nations will do what every primitive community sooner or later does, namely: In a primitive community when the honor of the women and the property of the town are no longer safe from outlaws, all men, even the most peace loving, unite in forming a Vigilance Committee, in which they agree to use their combined force to see that outlaws are kept down and the peace of the town maintained.

The United States is today in exactly the position of a man of peace in a frontier town. It is our duty to suggest and stand ready to join an International Vigilance Committee, in which the nations of the world shall join in saying that they will use their combined power if necessary to force any nation with a grievance to submit its difficulty to an International Court or Council of Conciliation before declaring war.

Arms to Support Law.

It seems practically possible that at the end of this war the nations will be willing to enter a League to enforce the submission of all disputes to an international court or council of conciliation for a complete examination before war can be declared. Beyond that it is doubtful whether they will go. It is doubtful whether the nations will agree to submit to the enforcement of the decision of such a court. It is practically certain that the nations will not disarm for years to come. Shall we not, therefore, take the one step that is possible? Shall we not say that if nations must arm, the armaments shall be used to support law rather than to break it?

PRESIDENT TO REVIEW PARADE

Washington, May 19.—President Wilson with Mrs. Wilson and a large party left here tonight for Charlotte, N. C., where he will review a parade and speak tomorrow at the annual celebration of the Mecklenburg declaration of independence. They travelled on a private car attached to the second section of a regular train. The president probably will make several short addresses from the rear platform of his car.

The party will be back in Washington early Sunday.

SINK GERMAN STEAMER

Stockholm, May 19.—via London —The fourth vessel sunk in the new submarine campaign against German shipping was the steamer Trave. The crew was landed.

The Trave, formerly the Shamrock was of 762 gross tons. She was built in Lieth in 1878 and was owned in Lubeck.

IRELAND'S GOLDEN AGE

There need be no "theory" as to the early culture of Ireland. It is a fact, for example, that the Abbey of Clonmacnoise, near Athlone, was once a center of learning so renowned that scholars repaired thither from the ends of Europe, and the great Charlemagne sent it presents. And in the realms of art "The Book of Kells," a Latin copy of the Gospels, executed at that time had no rival for delicacy of illumination.—London Standard.

Chicago Specialist

In the treatment of Chronic Disease, will be at the Dunlap Hotel, Jacksonville, Illinois, Wednesday, May 24th, 1916 one day only (Returns every 28 days). Hours, 8 a. m. to 4 p. m.

Fourth successful year in Jacksonville. Consultation and Examination Free

I treat successfully the cases I undertake and accept no fee from those who are incurable. That is why I continue my visits year after year, while other specialists make only a few visits and cease to return.

IS THIS THE WAY YOU FEEL?

Tired in the morning and easily excited? Are you dizzy or nervous? Pain in the head? Tongue coated? Have you Catarrh—nose stopped up? Gas on the stomach? Hands and feet cold? Pain of hands and feet? Have you a cold, dragging pain or ache in the body, back or limbs? Have you Rheumatism? Have you Flatulency? Piles—itching or bleeding? Have you kidney or bladder trouble, lame or weak back, pains in back or joints? Have you any blood disease—scrofula, skin eruptions, pimples, nose pains, pale complexion and losing weight?

Invite you to call and investigate the Carson System of the treatment of Chronic Diseases, which I have perfected after fifteen years of experience and study, and you will be convinced that my modern, up to date methods of curing disease are what you need.

Never before has there been a treatment giving such universal satisfaction. Every sufferer is cordially invited to call and secure full details concerning this new treatment free of charge.

REMEMBER DATE OF VISIT.

Come early as parlors are always crowded. A friendly call may save you future suffering. It has made life anew to thousands who had been pronounced beyond hope.

12 years with my right side, and the
last three years, I would have a bad
spell with it about every three months.
I would get so bad off, every one
would think I could not live.

The first of July, I began taking
Cardui, the woman's tonic, and I
haven't had a bad spell since soon
after I began taking it.

Before taking Cardui, I was so ir-

Cardui will surely do for other

CAUGHT THE SENATOR

When Dr. Edward Everett Hale
was chaplain of the senate he once
asked a certain senator with a good
deal of solicitation if he was a
church member. The senator was
glad to be able to say that he was.
Two or three days later, according
to the story, Dr. Hale returned to
the subject and asked the name of
the church. (The senator gave a
name. Two or three days later
again Dr. Hale remarked to the sen-
ator with regret that he had looked
up that church and that he was sorry
to find that it had been burned down
twelve years before and never re-
built.

MACOUPIN MAY HAVE COPPER DEPOSIT

Those who thought they knew all
about historic old Macoupin county
and her resources may be fooled. The
possible key to a new situation was
found Wednesday by a prominent
farmer living east of town near
Coop's Mound, and was in the form
of a chunk of pure copper, weighing
two and one-half pounds. The name
of the finder and the location will
be omitted by request.

The find was made on the surface
of some hills, six miles east of town.
The chunk attracted the man's atten-
tion first by the unusual greenish
color, and then by its weight. He
brought it to town with him and
showed it to friends, who after they
had examined it, decided to have it
assayed.

The piece was taken to the Nims
jewelry store, and Mr. Nims after an
acid test, pronounced it pure copper.
A few at first thought it was gold,
for after scraping it with a knife
the bronze tint of the copper, which
resembles gold, was brought to light.
The chunk is in the natural or
state, as the surface of it is covered
with a green coating, which may be
scratched off. Sandstone rock and
other deposits of a like kind are
found imbedded in it.

Macoupin may have a deposit of
the metal worth mining one never
can tell. We are told that like
chunks have been found in the
Moore's branch vicinity and at other
places in the woods east of town.
The greater deposits in the northern
states were first exposed by the root-
ing of a hog.—Macoupin County
Enquirer.

BRINGING THE HEN TO TIME

Why should a hen have any better
right to cease her daily toil while
she is molting than a woman has
giving up housework when she de-
cides to remodel her winter hat or
darn the heels of her stockings?
Hens have too much their own way
about this laying business, which
makes it exasperatingly inconvenient
and exceedingly expensive for us
consumers. Labor unions have often
tried our patience, but when a low
down brindle hen refuses to lay
while her millinery and dressmaking
are under way it's carrying the
thing a bit too far for enjoyment,
and if she declines to arbitrate the
matter under discussion her food
supply should be cut off until she
comes to her senses. A hen with
such a disposition isn't fit for fri-
essee!—Cartoons Magazine.

WILL DECIDE FIGHT FOR TUCKERTON STATION.

November Hearing for Contest Be-
tween Germans and French.

Trenton, N. J., May 19.—The final
hearing of the suit brought by a
French wireless company to obtain
possession of the Tuckerton wireless
station from the German concern
now operating the plant has been set
for November in the New Jersey
Court of Chancery. At that time it
will be decided, providing no fur-
ther stay is obtained, if the German
company will be obliged to sell to
the French concern.

The action was brought by the
French company some time ago to
gain possession of the plant, alleg-
ing that it had a contract of pur-
chase with the present owners, en-
tered into before the war began. The
German company asked for a stay
and the refusal of the chancellor was
upheld by the Court of Errors and
Appeals.

Since that time an answer has
been filed by the German company,
thru its American lawyers, reciting
that the French government is the
instigator of the suit, hoping by ob-
taining the station to cut Germany
from communication with the United
States. The answer also alleges
that the purchase contract has not
been lived up to by the French com-
pany.

Altho the German company has
reiterated that the question of neu-
trality is involved and contends that
the litigation should be dismissed,
the Court of Appeals decided that a
United States court could hear a suit
between belligerent nations, taking
the view that neutrality might bet-
ter be preserved by upholding the
legal rights of litigants than by ig-
noring them.

It is contended by the French
company that the German corpora-
tion agreed to sell the station before
the outbreak of the war. Direct
communication from Tuckerton is
possible with the wireless station at
Elizev, Prussia. It is averred that
officials of the United States have
transmitted confidential messages
from Washington to Berlin by use
of the Tuckerton station and that
Ambassador von Bernstorff also has
communicated with his home gov-
ernment by use of the New Jersey
station. Also the station is used for
transmitting messages from Europe
to South American republics and
other countries in the Western Hem-
isphere.

An interesting contention of the
German company is that cessation
of wireless communication between
Tuckerton and Elizev, by order of a
court, would be contrary to public
policy and "contrary to the duty of
neutrality incumbent upon and as-
sumed by the United States."

LUNGS OF A BATTLESHIP

From Pearson's Weekly.

One of the most difficult problems
in building a battleship is to secure
satisfactorily ventilation. She is a
very complicated creature made up
of so many steel boxes, large and
small, for the accommodation of offi-
cers, men, coal, ammunition and
stores, dotted here and there with
so many steel ladders, automatic
lifts, steel bulkheads and watertight
doors, varied here and there by miles
of electric wires belonging to lights,
telephones, bells and motors, to say
nothing of the endless mileage of
pipes for flooding, draining, pump-
ing, fresh water, fresh air or com-
pressed air and speaking tubes.

First in importance comes the
ventilating of the boiler and engine
rooms. When you begin to think
of gangs of coal black demons work-
ing away in the bowels of the ship
at a temperature of 120 degrees;
when, too, you commence to realize
that unless the furnaces receive their
required draft the speed of the bat-
tleship drops to below that of her
sisters in the squadron, you appre-
ciate the importance of the steam-
driven fans to the furnace and boiler
rooms. The supply of air comes
down thru large water-tight trunks,
which are continued right up to the
weather deck, armored grating being
provided at the protective deck.

For ventilating engine rooms
large electric fans are employed.
So, too, the coal bunkers have to be
ventilated, owing to the gas which
the coal gives off. This gas, when
mixed with air, forms an explosive,
so in order to prevent the possibility
of injury to men or ship supply and
exhaust pipes are fitted in such a
manner as to cause a current of air.

HE WORRIED THE JUDGE

A story used to be told of the elder
Judge Peckham, father of the su-
preme court justice. In the early
days of dentistry a hickory plug was
put into the cavity to fill the space
where a tooth ought to be. This
plug had to be gently pounded into
its desired position. The old judge
was somewhat addicted to strong
language, and when the dentist be-
gan his work the judge indulged in
some classic comment. As the tap-
ping of the plug continued he threw
all dignity to the four winds of heav-
en and his language became decided-
ly "more forcible than elegant."
When, however, he arose from the
chair after what seemed to him an
interminable period of agony he
pulled out all the stops in his vo-
cabulary for a grand climax. The
impression on his listener seems to
have been deep and lasting. As the
judge passed out the dentist grimly
remarked to a waiting patient:
"Wasn't it beautiful? It wasn't real-
ly necessary to pound half so long,
but I did so enjoy his inflection that
I almost pounded the hickory plug
into splinters. Wonderful command
of language the judge has."

ACTIVITY IS STILL THE DOMINANT FEATURE IN NEARLY ALL LINES

Phrase "Sold Ahead" Typifies Con-
ditions That Buttress Most Lines
of Enterprise.

New York, May 19.—Bradstreet's
tomorrow will say:

"Activity is still the dominant fea-
ture in practically all commercial
and industrial channels and the
phrase 'sold ahead' typifies condi-
tions that buttress most lines of en-
terprise. Yet it is probable that in
the current week new business has
received somewhat by contrast with
the preceding superabundant activ-
ity, and it is evident that while buy-
ers of essential staples are still con-
cerned about probable future sup-
plies they are purchasing more slow-
ly, first to guard against loading up
too heavily, with stocks and secondly
they are hoping that prices will re-
cede. This streak of conservatism
is also due to growing discussions re-
garding prices having reached zen-
ith points and to persistent talk of
peace in Europe.

MUSICIANS CONSIDER JACKSONVILLE'S PROPOSAL

Spring Music Festival May Become
Annual Feature According to
Present Plans.

That the delegates to the recent
Illinois Music Teachers' convention
held in Jacksonville were well pleas-
ed with their treatment here is in-
dicated by a copy of the resolutions
adopted by the association, just re-
ceived by H. Jay Rodgers, secretary
of the Chamber of Commerce.

Following the action taken at the
recent meeting of the directors of the
Chamber of Commerce Mr. Rodgers
has already been in communication
with the officers of the music teach-
ers' association and there is an ex-
cellent prospect that the meeting
may be brought here again next
spring and thus possibly make a be-
ginning of an annual spring musical
festival, delightful for the people of
Jacksonville and which would result
in bringing many visitors to the
city.

Resolutions Adopted.
The committee appointed for the
purpose at the recent Music Teach-
ers' convention has prepared the fol-
lowing report in which is mentioned
the entertainment given by local
people:

Whereas:—The members of The
Illinois Music Teachers' Association,
in convention assembled, have re-
ceived many favors and courtesies,

Resolved:—That the Association
extend its hearty thanks to our hon-
ored president, Mr. John B. Miller,
for his efficient leadership and un-
tiring zeal; To the chairman of the
program committee, Mr. Franklin
Stead, the Secretary-Treasurer, Mr.
H. O. Merry, and the Board of Ex-
aminers for their devoted and unself-
ish services.

Resolved that the Association ex-
press its gratitude to the citizens of
Jacksonville for their cordial and
gracious hospitality; To the mem-
bers of the local committees, to
whose well laid, and efficiently ex-
ecuted plans, the success of the con-
vention is largely due; To the Chris-
tian church and the Illinois Woman's
college for the use of their respec-
tive auditoriums; To Dr. and Mrs.
Harker for the delightful reception
tendered the officers and members
of the Association; To the Daily
Press for the city for generous space
and courteous treatment; To the
Chamber of Commerce for generous
support, and courtesies to numerous
mentions; To all artists who con-
tributed the many excellent con-
certs, and to the authors of the many
interesting and helpful papers.

QUESTIONS ON THE SUNDAY SCHOOL LESSON.

By Rev. T. S. Linscott, D. D.

May 22

6. Will a wise and brave man,
sometimes run away from such dan-
ger as threatened the apostles, or will
he always stay and face it? Why?

7. Verse 8. Why should no blame
ever be attached to those who are
born with either physical, or moral
defects?

8. To what extent may parents
sometimes be blamed for the phys-
ical, or moral defects of their child-
ren?

9. Which, and why, are more in-
fluential in shaping a child's des-
tiny, pre-natal or post-natal influ-
ences?

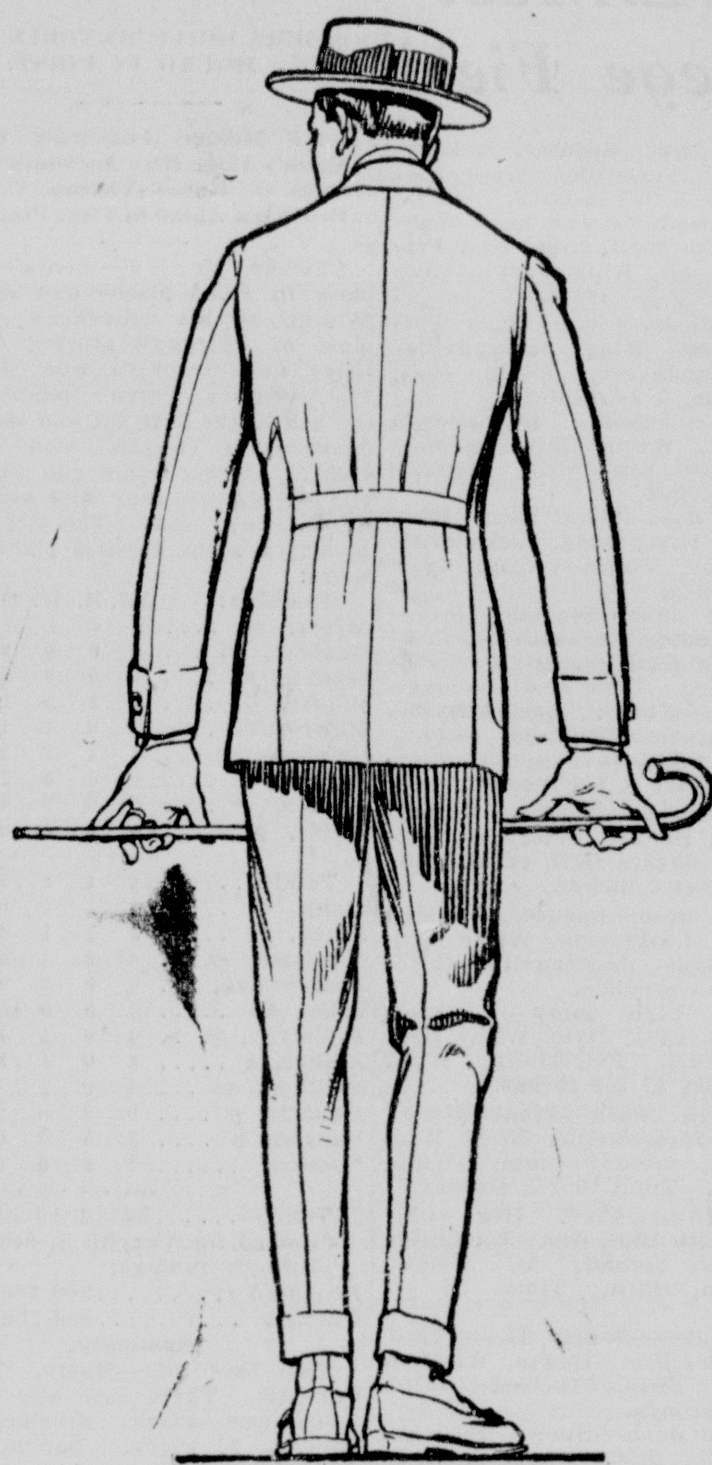

10. In our present national con-
dition, should the state provide for,
and maintain, all those who are born
in an impotent condition, if they are
not otherwise provided for? Why?

11. Verses 9, 10. Is faith like
this man had, possible for all, or is
it the gift of God, like the resultant
grace and healing? Why?

12. This was doubtless a miracle,
but would you say, or not, and why
that it is infinitely better for God
to carry on the world by the law
rather than by the miracle? (This
is one of the questions which may be
answered in writing by members of
the club.)

BERLIN, ONT., VOTING TO CHANGE ITS NAME

Berlin, Ont., May 19.—The special
election called to decide whether this
city will change its name is being
held today. It is predicted that the
decision of the electors will be al-
most unanimous for a change of
name. Since the beginning of the
war the agitation for a change of
name has been growing, and a special
act of the Provincial Legislature
was passed providing for the special
vote.

J. H. S. Takes Eighteenth Annual W. I. H. S. L. Meet On Illinois College Field

Fighting every inch of the way Jacksonville won the eighteenth annual meet of the Western Illinois High School League on Illinois College Friday afternoon, nosing out White Hall by a score of 47 points to 46 points. It developed early in the day that it would be a contest between Jacksonville and White Hall. Both had well balanced teams and the men all seemed to be in first class condition. It may be said, however, that certain men on both teams were asked to do more than human flesh could stand.

It was not until the result was announced in the hammer throw that Jacksonville was assured of winning. White Hall had two men entered in the event and they secured second and third. Had one of them been able to defeat Durnach of Beardstown for first place it would have given them the meet by one point.

Bright Stars in Meet
There were a number of bright stars in the meet. Every man on the Jacksonville team acquitted himself with great credit. Especially was this true of Homer Reynolds, Tomlinson, Spencer and Hull. John Purry also surprised the people by going out and winning the mile run. It is doubtful if Homer Reynolds was ever in better form. He won the century dash in 10 2-5 seconds, just one fifth of a second short of the record and took the 220 dash in easy fashion. Spencer won the half mile run and the quarter mile and Tomlinson the 120 and 220 hurdles. He lowered the record in the 220 hurdles. Hull was asked to do a lot of work and never faltered. Tho he did not win as many firsts it was his placing in so many events that did a world of good for Jacksonville. Angier of course was the star for Beardstown winning the javelin. Discus and shot put, Kinser and Culbertson starred for White Hall.

Only Two Records Broken
Only two records were broken during the afternoon, that by Tomlinson in the hurdles and Kinser in the high jump. It was the first year for the javelin and Angier hurled the shaft 165 feet 9 inches. Unless he comes back next year it is probable that the mark will stand for some time. It speaks well of the prowess of former Jacksonville high school stars in that two records made by Smith of Jacksonville still stand unbroken. In 1902 Smith put the running broad jump at 21 feet. Athletes have shot at the mark for fourteen years without equalling it. Smith also set the mark in the 100 yard dash at 10 1-5 seconds in 1904 and this record still stands.

Relay Race a Thriller
Not since Smith beat Quigley of Rushville the last lap in the relay race some ten years ago has there been so thrilling a relay as that between Jacksonville and White Hall yesterday. The two teams were the only ones entered. Every man ran his relay for all there was in it. Yet when Reynolds got away he was several yards to the bad. He started after the flying Culbertson and pulled up to him on the upper turn. When the pair headed in to the stretch Reynolds began to fly. He passed Culbertson about 60 yards from the tape and finished what was perhaps one of the fastest 220 yards ever run on Illinois field.

Weather Conditions not Favorable
The weather conditions were far from favorable. It threatened all day and before the first event was called it began to sprinkle and kept it up all afternoon. It did not bother the athletes much but it made it disagreeable for the spectators.

Work of Officials Excellent
The work of the officials was excellent. Coach Harmon who acted as starter had his aides all placed properly and there was no confusion and but little delay. In fact the only delay was in having to give more time between some of the races on account of contestants being entered in so many events and they needed time to rest.

The events were kept moving with such precision that the relay race, the last one of the program was run off and completed shortly after 4 o'clock.

SMITH'S STEADINESS WINS FOR BROOKLYN

DODGERS DRIVE HENDRIX FROM MOUND IN FIRST.

Flack's Homer Following One of Mann's Four Hits Accounts for the Cubs' Run—Victory Leaves Brooklyn Alone in First Place.

Chicago, May 19.—Smith's steadiness in tight places and splendid fielding by his colleagues spoiled most of Chicago's scoring chances today and Brooklyn won, 4 to 2. The visitors drove Hendrix from the box in the first but had some difficulty with Vaughn who fanned eight. Flack's home run following one of Mann's four hits accounted for the Cubs' runs. The victory left Brooklyn alone in first place. The score:

JULIAN FRISBEE RE-INSTATED BY ILLINOIS COLLEGE FACULTY

Star Athlete Will Participate in Intercollegiate Meet to be Held on College Campus Next Saturday.

Illinois College students were happy Friday afternoon. The faculty held another meeting and decided to allow Julian Frisbee, the star athlete to take part in track events. Frisbee is considered one of the best runners and jumpers in the Little Sixteen conference and with him a member of Illinois' track team the blue and white are a formidable foe for any team.

Frisbee was barred from taking part in athletics last winter and was compelled to leave the basketball team on account of not being up to his studies. A few days ago the faculty had a meeting and took up Frisbee's case. At the time Coach Harmon, a member of the faculty was away with the baseball team. The faculty refused to grant Frisbee's petition to take part in athletics.

Since the incident last winter Frisbee has gotten up in his studies and has done the best work of his career at the institution. On Coach Harmon's return he took the matter up again with the faculty. It was pointed out that Frisbee had made up his studies and was at the present time doing excellent work. After much deliberation Frisbee was declared eligible and will be a member of the Illinois track team in the big intercollegiate meet on Illinois field Saturday, May 27.

BUSH BESTS CLOTTE IN PITCHING DUEL.

Strunk Receives Base on Base on Balls at Start of Eleventh, Goes to Second on McInnis' Sacrifice and Scores on Pick's Single.

Philadelphia, May 19.—Philadelphia defeated Chicago 1 to 0 in 11 innings today. It was a pitching duel from start to finish. Strunk, who received a base on balls at the start of the eleventh inning went to second on McInnis' sacrifice and scored on Pick's single, after Lajoie had purposely been given a base on balls. With runners on second and first and two out in the 11th, McInnis who had the record number of twenty put outs here this season made a wonderful one hand catch of Liebold's liner.

Detroit 2; New York 2

New York, May 19.—New York and Detroit played a sensational sixteen inning game here today. 2 to 2. The game was featured by the remarkable fielding feats of both teams. Early in the game the locals hit Covaleskie hard and he was saved repeatedly by the splendid fielding of Vitt, Bush and Young. After New York tied the score in the ninth inning, Covaleskie did not permit a hit in the next seven innings, and allowed only two runners to reach first base.

Cullop pitched eight innings for New York and his own wild throw was responsible for Detroit's two runs in the first inning. Shawkey took Cullop's place in the ninth and yielded only three hits in eight innings and received wonderful support from New York's substitutes, Mullen and Boone, and from Magee.

Score: Detroit 200 000 000 000 0—2. New York 000 100 001 000 000 0—2. Covaleskie and Stange; O. Baker; Cullop, Shawkey and Walters.

Cleveland 7; Washington 1

Washington, May 19.—Cleveland took the second game of the series from Washington 7 to 1. The visitors did all their scoring while batting Boehling and Shaw out of the box and were held safe by Dumont during the last four innings. Morton pitched good ball for Cleveland.

Boston, May 19.—The St. Louis Americans again defeated Boston today, outplaying the Red Sox from start to finish, 5 to 1. Groh from Boston to four hits, three of which were made by Hobbitt. The visitors bunched hits off Leonard and Shore who pitched the final inning, had nothing that was puzzling. The St. Louis outfield played brilliantly and the inner defense was not behind in excellence, the errors being

WHEAT VALUES SUCCUMB FURTHER TO CURRENT PEACE SUGGESTIONS

Close Is % to 1% Cents Net Lower—
Corn and Oats Finish at a Loss.

Chicago, May 19.—Wheat values succumbed further today to the influence of current suggestions of peace. Largely in consequence, the close alto unsettled was % to 1% net lower with July at \$1.12% and September at \$1.12%@1.12%. Corn finished % to %@% down; oats off % to % and provisions up 2% to 15c.

First trades in wheat were at material declines and except during a brief period soon afterward the advantage thrust the session remained with the bears. Rallyies were numerous, but barring the single instance noted appeared to be due chiefly to profit-taking by shorts. The one deviation resulted in the main from Kansas dispatches telling of numerous fields having become a total loss on account of damage by Hessian fly. Some additional purchasing at this time was doubtless owing to reports of a lack of rain in southern Kansas. On the ensuing upturn, however, selling pressure was redoubled and the market sank lower than before, the minimum level of the day being coincident with announcement that Germany would make no reply to the latest note from Washington and that apparently the submarine issue was at an end.

Near approach of the completion of planting tended to ease off the corn market. Declines, however, were to some extent overcome by shorts taking profits.

Oats sagged with other grain. Crop reports were bearish, save for damage in Kansas by green bugs.

Provisions ascended helped by an advance in the hog market. Lard especially was in demand.

COURT DIRECTS VERDICT IN SUIT AGAINST SNYDER ICE CO.

Ruling Instructed Jury to Find in Favor of Defendant—Young Woman Injured at Plant in 1911 Sued for \$10,000.

In the circuit court Friday afternoon Judge Burton instructed the jury in the case of Margaret Blundell vs. the Snyder Ice & Fuel company to bring in a verdict in favor of the company. This action was taken after argument of certain points of law had been made before the court in the absence of the jury. The jury was secured about 10 o'clock Friday morning and included the following: P. R. Morris, A. L. Wood, W. P. Spillman, Adam Ehrigott, Jr., Charles Godfrey, George Busey, Albert Farrow, P. J. Woulfe, C. A. Beavers, O. N. Petefish, William Stringer and Phil Hinners. The taking of testimony commenced and continued until about 3:30, when a motion was made by Bellatti, Bellatti & Morlarty as attorneys for the defendant, asking the court to instruct the jury to bring in a verdict in favor of their client. The jury was taken to an adjoining room while argument was made by the attorneys upon the various points involved and court op-

Doughnuts

That will remain moist.

Every housewife who bakes her own bread knows that if a little potato is added to the sponge, the bread will not dry out as quickly. In this recipe potato is utilized to make doughnuts that will remain moist and fresh for several days.

K C will be found to have distinct advantages over any other Baking Powder for doughnuts. K C is a double acting baking powder with which a large batch of doughnuts may be mixed and fried a few minutes. The last will be as light and nice as the first.

K C Potato Doughnuts

By Mrs. Nevada Briggs, of Baking School fame.

3 cups flour; 2 eggs; 1 cup sugar; 1 level teaspoonful K C Baking Powder; 1/2 tea spoonful salt; 1/2 teaspoonful mace; 1 cup cold mashed potato; 1 cup milk, or more if needed.

Sift three times, the flour, salt, spice and baking powder. Beat eggs with rotary beater, then still using rotary beater, gradually add sugar, then work in the mashed potato with a spoon and alternately add milk and flour mixture. Make a soft dough, roll into a sheet, cut into rounds, pinch a hole in the center with the finger and fry in deep fat.

Fat for frying should not be hot enough to brown the doughnut until it has risen. When the doughnut is dropped into the fat it sinks to the bottom. As soon as it comes up it should be turned and turned a number of times while cooking. This recipe is excellent as they do not take the fat in frying and will stay moist for days.

GET RID OF SCURFULA HOW? TAKE S. S. S.

Fifty Years' Use Proves S. S. S. Will Relieve Stubborn Cases.

You have noticed the little festering pimples on the face and body—swelling of the glands—soreness in the legs and arm muscles. These are the symptoms of Scurfula. You may have some of these symptoms, possibly the taint of Scurfula infection. But in either case, it is a dangerous condition. Your blood is infected, impure, and you can never hope to gain perfect health until the impurities are washed from the system. If you feel badly all the time, you must crave health. If you want to feel renewed spirits, the glow of perfect health, bright eyes, clear skin, the knowledge that you are well, you can do so. Cleanse your blood by taking S. S. S. For fifty years it has been the standard blood purifier. It relieves the trouble by renewing the blood, renewing its strength, and stimulating the flow so that the blood regains its lost vitality, and throws off the poison. Even long-standing cases respond. But you must use S. S. S. Take it for all blood infections. Get it at your drug-list today.

inions were cited. The plaintiff's attorneys are Worthington, Reeve & Green of this city and Clarence Hyle of Peoria.

Margaret Blundell was injured at the plant of the Snyder Ice & Fuel company on the night of July 21, 1911, when she went there to carry a lunch to her brother, an employee. As she walked thru the engine room to place the lunch on a bench her hair caught in the machinery and very severe injuries resulted. A part of the scalp was torn from her head and she was otherwise cut and bruised. Suit was brought a few months afterward in the circuit court where damages in the sum of \$10,000 were asked. The case did not come to trial until the present term.

The court in making statement prior to giving instruction to the jury to find a verdict, declared that the evidence did not support the charges as outlined in the declaration. There was nothing in the evidence to indicate that the space thru which the girl walked in the engine room when she was injured was customarily used by persons who entered the building and it had been shown that she started to walk into the dark room where machinery was running without using necessary caution. It was held that if her brother directed her toward the bench on which she was to place the lunch basket, that this direction was not given as an employee of the company and did not tend to throw responsibility upon the company. Before the verdict was entered the plaintiff's attorneys were given leave to amend their declaration so that the charge is made that the company did not have sufficient safeguards about the machinery used in the plant, the purpose of this charge being to keep the case in such form that an appeal to the appellate court can be taken.

LEGION OF HONOR ANNIVERSARY OBSERVED

Napoleon Founded the Order May 19, 1802—Honor Conferred on Many Since That Date.

Paris, May 19—Since Napoleon founded the Cross of the Legion of Honor on May 19, 1802, distinguished men the world over have been honored with the decoration. Napoleon was First Consul when he founded the order. On the restoration of the Bourbons, the order was continued. The honor was conferred on many British subjects who distinguished themselves in the Russian wars. Distinguished service to the state is necessary before France confers the Legion of honor decoration.

A score or more of women have been decorated for personal bravery in warfare, but unfortunately only a few of their names have been preserved, as the Palace of the Legion was burned down during the commune and all records were destroyed.

Napoleon himself decorated at least seven women for valor. The chief of these was Anne Biget (Soeur Marthe) who was a Sister of Mercy and earned her distinction for her devotion to the sick and wounded, in the care of whom she risked her life constantly. Another distinguished woman who won the honor was Mlle. Dodu, a postmistress in a village that had fallen into the hands of the Prussians in 1870. She destroyed a message which she had been ordered to transmit. For this she was court-martialed by the Germans and condemned to death. On the arrival of Prince Frederick, however, the prince himself complimenting her on her superb courage.

ARGUES IN FAVOR OF OPEN MARKET IN STOCK BUYING

Cincinnati, O., May 19.—Arguments in favor of the open market in stock buying were made today in an address by W. A. Moody, of East St. Louis, Ill., before the meeting of the National Live Stock Exchange. Mr. Moody told of the following policy, set out at Indianapolis last year, of appealing to public opinion for support in the effort to get more open markets for producers of cattle and commission men.

"With this policy in view, we have boldly attacked the recently established policy of the packers to buy their supplies directly from the producers," he said. "We believe that the general public believes in maintaining an open market. If it be contended that we, as commission men, are middle men and can be eliminated without injury to producer or consumer, we reply that the open market is the only legitimate method of marketing live stock, and if we are to have an open market, the commission man is an absolute necessity. If we are to have a commission man, he must receive the stock to sell in sufficient quantities that his business will be remunerative.

"The prosperity of the West depends largely upon the ability of the farmers to sell their cattle at remunerative prices. Representing, as we do, the producers, we are battling constantly for higher prices. We believe the farmer is the basis of our prosperity.

"The live stock industry is pre-eminently America's greatest industry and to allow this source of wealth to be monopolized or controlled would be not only a blunder; it would be worse—it would be a crime.

"In asking the packers to purchase their supplies in the open market, we are not asking them to abandon the old and well established policy, but to follow a policy established by them and only recently abandoned."

NO MORE GOLD CLASS PINS FOR GRADUATING NURSES

Springfield, Ill., May 19.—For some years the state board of administration has made a practice of giving gold class pins—\$10 the pin—to nurses graduating from state hospitals. Henceforth the nurses will get their education and then a diploma, nicely engraved, but no jewelry.

A male nurse is responsible for the saving of \$900 or more which will be accomplished by the change in policy. He wrote to the board and suggested that instead of pins, the male graduate nurses be given watch charms. His letter caused a laugh at the meeting of the board of administration, but when the laugh subsided one of the members introduced a resolution calling for the abandonment of the practice of giving class pins to graduate nurses.

The resolution was adopted.

"The money saved will care for several of the state's charges for a year," said a member of the board.

RECEPTION TO THE REV. AND MRS. LANDIS

Brilliant and Beautiful Event Held at Westminster Church.

It was a happy occasion Thursday evening, when the people of Westminster church gave a welcoming reception to their new pastor, Rev. E. B. Landis and his wife.

The beautiful social rooms of the organization never looked prettier than then, and the large and beautiful display of flowers was remarkable in effect.

There were gathered in friendly Christian greeting members of other churches with those of Westminster, and some of the other pastors of the city. Still other ministers were unable to be present thru absence from the city.

The assemblage was brilliant and beautiful, and Mr. and Mrs. Landis can well congratulate themselves upon the cordiality and interest shown them. The ladies of the church had charge of the arrangements and they were ably assisted by their help-meets in making the gathering one of note.

S. D. S. CLUB ENTERTAINED.

Members of the S. D. S. club were entertained yesterday by Mrs. Emma Williams at her residence on South Main street, assisted by Mrs. Mary Banks, Mrs. N. J. Blue and Mrs. Sarah Rice. The house was beautifully decorated in the club colors and the program carried out was of a very profitable nature. A delicious luncheon was served. The subject of charity work formed the basis of an interesting discussion. The club journal was read by Mrs. Pauline Moore and a recipe for butter scotch pie was given by Mrs. Elizabeth Weir. Mrs. N. J. Blue, past president of the club, was presented with two silver spoons as a token of regard. Short talks were made by Mrs. Barnett, Mrs. Carter, Mrs. Johnson, Mrs. Jackson and Mrs. Mounts. After the luncheon each guest present was given an appropriate remembrance.

The next meeting of the club will be held at the home of Mrs. Lida Mallory the third week in June.

REPUBLICAN CLUB MEETING.

The Morgan County Young Men's Republican club will hold a meeting in Armory hall Monday evening. The club has adopted by laws and secured a charter from the secretary of state and will begin at once to add members to the roster. It is earnestly desired by the officers that there be a full attendance of members.

W. W. Wright was a visitor in the city yesterday from Ashland.

RUMORS THAT ST. PAUL WILL ASSORB C. P. CONTINUE

Report Is That Big Northwestern Line Seeks Entrance Into St. Louis.

At regular intervals in the past ten or twelve years the Chicago, Peoria & St. Louis railroad has been "about to be absorbed" by some one of the big systems—the Burlington, the Chicago & Northwestern, the Santa Fe, etc. Now it is the "St. Paul," according to the following dope from Thursday's State Journal, which is important—if true:

The report is current in railroad circles that the Chicago, Peoria & St. Louis railroad will be absorbed by the Chicago, Milwaukee & St. Paul railroad.

Plans are said to have been perfected whereby the C. P. will be taken over in the very near future. This is a matter of great importance to this locality as the object of the St. Paul people in obtaining control of this line is declared will mean an entrance into St. Louis and the gateway of the south and southwest.

The St. Paul has been making extensive improvement in its line and extending the system until it reaches to Puget Sound and taps a vast territory in the northwest. By gaining control of the C. P. they will not only be able to enter St. Louis on their own rails but at Springfield connect with the Baltimore and Ohio Northwestern and Cincinnati, Indianapolis & Western for the central routes to the eastern seaboard.

COURT TAKES HAND IN LOUISVILLE & NASHVILLE SCANDAL

Mum Official Must Explain Refusal to Explain Vouchers.

Washington, May 19.—Milton H. Smith, president of the Louisville & Nashville Railroad must appear in the Supreme Court of the District of Columbia today to explain why he should not answer certain questions asked him during the investigation into his company's affairs by the Interstate Commerce Commission. By advice of counsel, Mr. Smith refused to tell of campaign contributions made by his road in Tennessee, Kentucky, Alabama and Georgia, or to answer questions whether he had been ordered by the road's directors to use road funds for political purposes, or whether he had made contributions with a view to purchasing political favor, or what had been the policy as between Republican and Democratic parties. The disposition of a so-called secret service fund of \$295,000 between 1906 and 1914, and vouchers aggregating approximately \$50,000 were thus unexplained.

The probe of the financial conditions of the railroad, its issuance of passes, and other alleged irregularities was begun by direction of the United States Senate.

REGARDING CARPETS.

Charles E. Dozier, the veteran carpet man who carries half a car load of samples and stops only at large places, was in the city yesterday visiting his trade here. He says the great trouble with carpet manufacturers is the supply of wool. Almost the only country producing wool that can be used for carpets and rugs is Russia and the supply from that country is practically cut off and in addition thousands of sheep have been killed more than usual and many more have perished from exposure. The wool of these sheep is especially coarse and especially suitable for carpets. That produced in other lands, Mr. Dozier says, would not make carpets with one-tenth the wearing qualities of the goods made from Russian wool which is quite coarse and strong and just the thing for carpets and rugs. Just now retail dealers hardly know what to do. Goods are high and the future is so uncertain they are fear to buy largely and yet must keep up their stocks.

Miss Helen Widmayer of Virginia was among Friday visitors in the city.

HEALTH BOARD BEGINS WAR AGAINST THE MOSQUITO

Bulletin Issued Making Suggestions
How Pest Can Be Exterminated.

Springfield, May 19.—In response to a heavy general demand for information on suppression of the mosquito nuisance the Illinois state board of health issued the following bulletin on the subject today:

Neither our national nor our state governments have as yet deemed it wise to supply their health agencies at home with means and authority to exterminate the mosquito and make these United States a better place in which to live even though this may be accomplished for a cost well within the benefits derived. But Uncle Sam does send some of those among us to Panama, Cuba, Porto Rico and the Philippines and there permits them with ample funds and freedom from the home restraints to convert these fever-ridden tropics into veritable health resorts with a thoroughness that has commended the admiration of the world.

The striving in hope we should not permit unassuming governmental conditions to stop the progress of health work, but should use ways and means at hand to at least make a start in the right direction.

While well equipped and efficient national and state health departments are best adapted to the work of exterminating mosquitoes and with them the mosquito born diseases—malaria, yellow fever and dengue—nevertheless very material results can be obtained by popular and voluntary effort if the correct education and campaign methods are used.

Correct methods will, of course, vary with local conditions, but a suggestive outline may be helpful if not directly applicable to any particular condition.

Various Organization Plans.

An anti-malaria and anti-mosquito campaign may be initiated by a health department, a municipal government, a commercial club, a woman's club; in short by any person or organization that commands general confidence and is working in the interests of public welfare. But in any case, the health officer should become a central figure in the movement, directing activities and using his legal authority when and where necessary.

When the campaign is once started, it must be a vigorous one and every available means and agency should be brought into action. Also, each agency must understand clearly its particular function so there will be no overlapping of efforts and, most important of all, each agency should be held to strict accountability for performing the special task assigned to it. A suitable assignment of work to agencies usually available is suggested in the following paragraphs:

The health officer or health department should maintain general oversight of the work, issue instructions and information to the various agencies engaged in the work, make such sanitary inspections as means will permit and condemn as nuisances any conditions favorable to the breeding of mosquitoes which may be overcome by reasonable expenditure and care on the part of property owners and householders.

Commercial Clubs and Chambers of Commerce may properly be called upon to raise funds to cover necessary expenditures. These in general will be small, involving principally the purchase of oil for covering breeding places and a certain amount of labor for applying oil and clearing water courses. Very often, organizations of commercial men are in a specially favorable position to arrange for mass meetings and to otherwise promote publicity.

Must Rely on Newspapers.

The newspapers however, must be relied upon for most of the publicity and a thorough understanding should be had with local editors before the campaign is undertaken as to the space and prominence they are willing to give the undertaking. Needless to say, the papers must be liberally supplied with good copy having news value.

Women's Clubs are being more and more recognized as a force in civic betterment and the anti-malaria and anti-mosquito campaign should make a special appeal to them when it is realized that children suffer most from the disease and are tortured most by the insects. There are many ways in which the women's clubs may assist, but most obviously they may hold meetings for instructing housewives how to screen houses for keeping out mosquitoes and how to look for and eliminate breeding places in the immediate vicinity of the house. The meetings should, if possible, be supplemented by house-to-house visit by carefully selected committees for purposes of inspection and instruction.

Schools and School Teachers may help in disseminating knowledge relating to the habits of the mosquito and methods of destroying breeding places.

Realizing the value of this agency in anti-malarial and anti-mosquito campaigns, the United States Public Health Service has published a pamphlet entitled "Malaria, Lessons on its Cause and Prevention" especially adapted to use in the school room. For the convenience of those who wish to undertake an anti-malarial campaign, this pamphlet is reproduced in full in this bulletin.

Boy Scouts can render a service invaluable to the campaign, very instructive to themselves and directly in line with the aims and objects of this splendid organization by thoroughly scouting the territory within a mile or two of their homes for mos-

quito breeding places and by using such means as are permitted an advance guard in exterminating the enemy. Where there are no boy scout companies, an organization of boys may be improvised with a male school teacher at its head.

Farmers organizations where they do exist may also be brought into the service with a view of getting concerted effort on the part of farmers in keeping their drainage ditches free from weeds and pools, draining depressions that may hold standing water and stimulating the establishment of drainage undertakings where such do not already exist.

Finally, the assistance of the State Board of Health may be had for making preliminary surveys of the territory to be covered by the campaign, such surveys to serve as a basis for giving specific instructions relating to the local problems.

ENTERTAINMENT AT MURRAYVILLE.

A pleasing concert was given in the M. E. church in Murrayville Friday night by Mr. and Mrs. Elmer Thomason. They are graduates from the Illinois School for the Blind in this city and are engaged in concert work. They appeared in Murrayville some months ago and so pleased that they were asked to return. The program consisted of instrumental selections and readings. Mrs. Thomason giving a demonstration of the manner of reading as taught at the school. Mr. Thomason also gave a number of imitations which greatly pleased. The artists were greeted with a capacity audience.

CAMPING AT MATANZAS.

A party of young ladies left yesterday for Lake Matanzas where they will spend a few days camping. They will occupy San Souci cottage. The trip is a novel one in that the young women went without the usual male escorts expecting to do all of the camp work and show the young men that they are fully capable of taking care of themselves. Those in the party are: Misses Margaret Ayers, Ethel Wylder, Millicent Rowe, Eleanor Capps, Susan Brown and Eloise Day of Pontiac, Mich. Miss Rowe took her Airedale dog, Michael as protector of the party.

FORMER MEREDOSIA MAN DIED SUDDENLY IN QUINCY

Oscar Brackenbury Succumbs to Heart Disease While at Supper Table in Home of Sister.

Oscar Brackenbury, a resident of Meredosia, died suddenly while at the supper table at the home of his sister, Mrs. Mary Burrus, in Quincy Thursday evening. Heart trouble was supposed to have been the cause of his death. He left Meredosia about one month ago for Quincy where he was employed in painting and paper hanging.

The deceased was 63 years of age and was born in Atlas, Pike county, but had lived the greater portion of his life in Meredosia. He is survived by one sister, Mrs. Mary Burrus of Quincy and one brother, Charles Brackenbury, of Kampsville.

The remains were taken over the Wabash Friday evening to his home in Meredosia and the funeral will take place Saturday afternoon at 2 o'clock from the Church of Christ of which the deceased was a consistent member. Elder B. E. Hayden will conduct the services.

FRANKLIN HIGH SCHOOL PUBLISHES ANNUAL.

First Volume of the "Franklinian" Will Appear Soon.

Seniors of Franklin high school have in course of publication the first annual ever issued by a Franklin high school class. Alan Kephlinger is manager of the enterprise and Miss Ruth Tulpin is editor in chief. Fred Miller is designer and Miss Esther Sample assistant editor. The class reporters are: seniors, Miss Mollie Harris; juniors, Beatrice Anderson; sophomores, Orville Burnett and freshman, Norman Seymour. After some deliberation the name "Franklinian" was selected as a fitting name for the volume. This was hit upon by a combination of the first five letters of the students' towns and the last five of the state, and has met with general approval. The annual is from the press of J. K. Long and promises to be a very attractive publication.

PLAY BY HIGH SCHOOL SENIORS PLEASES AUDIENCE AT GRAND

Talent of High Order Manifested in Presentation of "All of a Sudden, Peggy," Friday Night.

"All of a Sudden, Peggy," the comedy in three acts by Ernest Denay presented Friday night at the Grand Opera house, was especially well received. Jacksonville high school seniors, with a power of character delineation not often seen among amateur performers, caught hold of the author's meaning with a true instinct for dramatic possibilities and rendered this drama of English life in a manner at once clever and pleasing.

As Peggy, the impulsive one, Miss Margaret Strandberg did exceedingly well. A natural dignity of manner stood her in good stead in the heavier parts and she seemed always the mistress of the most troublesome situation. Opposite in character was the part of Lady Crackenthorpe, taken by Miss Gladys Andre. Miss Andre's simulation of the noble gentleman's hauteur and superior pride seemed perfect.

As the Hon. Jimmy Keppel, William Florenz seemed quite at home. He had the heaviest of the men's parts and he spoke his lines with ease and earnestness. Russell Pinkerton pleased the audience well at each appearance as did also Lawson Darby, with a part full of unconscious humor. LeFount Andrews as Jack Menzies had the air of a typical Englishman. James Haigh and Walton Ward as Parker and Lucas spoke their brief parts well. With especial poise and grace Miss Esther Davis played the role of the young gentleman, the Hon. Millicent Keppel. The matronly Hon. Mrs. Colquhoun was a part played by Miss Dorothy Rogerson surpassingly well.

Mrs. O'Mara, widow of Prof. O'Mara, P. R. S., was a warm hearted Irish woman, witty, yet kind at heart. In this role Miss Helen Obermeyer played perhaps the best of the humorous parts.

A fair sized audience was present in spite of threatening weather and all who attended joined in sincere expressions of praise. The play was well timed and there was none of the tedious tendency so often seen in amateur presentations. Much was added to the play's success by the excellent costuming of each character. Properties were cared for by a committee composed of Miss Helen Alcott, Miss Lucile Bolton, Reon Marshall and Edward Tomlinson.

Miss Anna E. Day, senior class officer, was cashier. Other members of the faculty as well as many of the students gave assistance in various useful ways.

Miss Jeanette Taylor, director of the play, was tireless in her work for success of the comedy. To each detail of acting and staging she gave earnest attention and her labor was well rewarded.

The first scene of the comedy is said in the hall at Hawkhurst, an English country place, and it was here that the suddenness of Peggy was first made manifest. In act two the scene is laid in Jimmie's flat in London and the suddenness of consequences is here made known. The final act takes place again at Hawkhurst and here it is that the audience is treated in a delightful way to the "consequences of suddenness."

The costumes were furnished by Fritz Schoutz of Chicago and the furniture by Andre & Andre. A part of the scenery was the work of the manual training boys of the high school. Robinson's Hat Shop furnished and designed the hats.

WOULD MERGE SYNODS
Minneapolis, May 19.—By a vote of about four to one the Norwegian Lutheran synod meeting in extraordinary session tonight adopted a majority report recommending acceptance of the constitution which would merge the synod with the United Norwegian Lutheran church and Hauge's synod. Concurrently a change in the constitution regarding predestination and election before final action can be taken was tabled by a correspondingly one-sided vote.

BEARDSTOWN WON FIRST HONORS IN DECLAMATION CONTEST

Jacksonville Took Second Place and Beardstown Third—Enthusiastic Address at Grand Opera House.

An enthusiastic audience gathered at the Grand Opera house to enjoy the annual contest in declamation as a part of the Western Illinois High School League events and all present were well rewarded by hearing some fine speaking.

Miss Dorothy Gardner, Beardstown, won first honors; John Collins, Jacksonville, second and Miss Myrtle Binns, Pittsfield, third.

All the speakers showed careful drilling and gave their teachers good reason for satisfaction.

The audience was small especially in comparison with what it has been on former occasions but that perhaps is to be expected but the quality of the program merited a better attendance.

Mrs. Florence Pierson Hartmann of the musical department, Illinois Womans' college, favored the audience with two songs which were highly appreciated and sung with rare ability. She was accompanied on the piano by Miss Dean Obermeyer of the College of Music.

The following was the program: Beardstown, "The Mallet's Master Piece"—Dorothy Gardner.

Winchester, "The Honor of The Woods"—Cecil Brown.

Virginia, "The Going of The White Swan"—Christine Sligh.

Greenview, "The St. John Fund"—Anna Johnson.

White Hall, "Arena Scene" from Quo Vadis—Sylvia Whitlock.

Violin solo—Hungarian Dance.... Miss Minnie Hoffman

Assistant in violin, Conservatory of Music.

Ashtand, "Rabbits and Other Eggs"—Pearl Shelton.

Tallula, "The Man in the Shadow"—Elizabeth Rogg.

Pittsfield, "Judith of 1864"—Myrtle Binns.

Jacksonville, "The Dukite Snake"—John W. Collins.

Petersburg, "The Decision of Little Pat"—Leon White.

Vocal solos—Florence Pierson Hartman, Rena Lazelle.

The following scores were made by the judges:

Beardstown, 93 1-3.

Winchester, 88 2-3.

Virginia, 86 1-3.

Greenview, 84.

White Hall, 89.

Ashtand, 88 1-3.

Tallula, 85.

Pittsfield, 89 2-3.

Jacksonville, 91 2-3.

Petersburg, 87 1-3.

Business Session.
A business session followed but little of importance was brought before it. One incorrect impression was righted and that was that a person cannot enter the declamation contest more than once but it said that the rules only barred out those who had received first, second or third prize.

The high school at Carrollton had asked admission but it was decided that the league was already large enough and no more would be admitted unless some school dropped out.

BOARD OF EDUCATION.

Walter A. Crawford, Robert T. Cassell, Braxton W. Smith, Thomas H. Rapp and David H. Slater, the above named business men of Jacksonville have been induced and persuaded by the committee against their wishes to allow their names placed as candidates for membership on the board of education for the good of the schools.
